

ABOUT ME

As a web developer I am always attentive to the planning, organization, and structure of all my projects, relying on my knowledge as a Bachelor of Administration that allows me to have a broader idea of how to achieve my goals; To provide solutions to existing problems, I rely on my computer skills and my other non-technical skills that help me to be more efficient in my work performance. I am excited to be part of new projects and new experiences that allow me to grow both professionally and as an individual.
